

Customized Presentations

The Support Approach Team will tailor our presentations to meet your training needs.

Our repertoire of experience in providing assistance to individuals and their teams, compliments our ability to create effective training for the needs of a variety of staff, parents, and individuals. We recognize the diversity of support services in Calgary and the surrounding region and are committed to offering training opportunities that cross a variety of borders. Thus when PDD funded service providers have training needs which are not addressed through our previously developed workshops, **The Support Approach Team can assist at no cost to the service provider. By linking our resources, we create a presentation, which meets specific training requests.**

Some of the customized presentations we have delivered are:

- Basic Disability Identification
- Transitions for Parents and Guardians
- Health and Safety
- Conflict Resolution
- Diversity
- Facilitating Friendships
- Path & Goal Setting
